

**Suffolk Federal Credit Union
Medford, New York
Director for the Board of Directors**

Come make a difference in one of the most important areas of people's lives: their financial wellness. Suffolk Federal Credit Union is seeking board members that can help determine and direct the policy to support an ongoing and successful enterprise. Through a monthly meeting and annual strategy session, the board is the ultimate compass for the credit union, guiding its long-range direction, developing its key values, monitoring its performance, and interacting and guiding with an experienced Chief Executive Officer.

The successful candidate will bring diverse knowledge and experiences into the board through open and robust conversations. Such a candidate will also be a perpetual learner and leader, directing the cooperative toward meeting its members' needs. This is an opportunity to lead an organization with 53,000 members and over \$900 million in assets to a better future. "The board work is a challenge that provides the personal satisfaction of achieving something together," said one long-term director.

Each board member receives an annual training allowance with the opportunity to attend and learn at conferences across the nation. You may bring your significant other to these destinations, and network with other boards of directors and leaders of credit unions. As a board member, you will receive training and leadership development to support your leadership role in the credit union and add value to your current profession and your other roles in community. Best of all, you will know you are helping members make a difference with their finances.

Suffolk is a not-for-profit financial cooperative founded in 1967 committed to the idea that "people are worth more than money." Membership is open to anyone who lives, does business, or worships in Suffolk County – you cannot be more local than we are in serving people's financial needs while being a part of our community.
