

Chief Information Officer
Mazuma Credit Union (\$576M in assets)
Overland Park, Kansas

Mazuma Credit Union has been a Kansas City institution for over 65 years. Above all else, Mazuma is about “banking happy,” and it will do just about anything to make that happen. For its next Chief Information Officer, Mazuma is currently seeking an individual with vision who will challenge the status quo.

As CIO, you will be able to fully utilize your business acumen and your management and technical expertise. The CIO role provides an opportunity to lead the organization to improve its technological capabilities. You will be expected to have collaborative relationships with the board, the CEO, your peers, direct reports, and business partners.

Your primary role will include directing and controlling the company’s information systems and technology activities. Your management responsibilities will include all of the company’s systems design, programming, network planning, database management, and computer operations.

Top candidates will be technologically savvy and possess strong leadership skills. They will be able to work in a fast-paced environment while using good communication and management skills to build mutual respect with internal stakeholders. Candidates are required to have a college degree in computer science or a related field; 5 to 10 years of progressive experience; and some familiarity with Symitar, Digital Insight, PSCU, and Lending 360 (through CUDL or similar systems). Other pluses include credit union or banking experience and project management skills.
